Energy Quiz

ENERGY QUIZ

Find 5 words that are linked to the word "energy":

Complete the following table that shows you how much energy is part of our everyday life:

USE <i>All year long I need...</i>	EXAMPLES OF ACTIONS <i>What do I do?</i>	WHAT EQUIPMENT DO I NEED? <i>What do I use ?</i>	THE ENERGY SOURCE <i>What makes it work?</i>
1 TO EAT	I COOK FOOD	A COOKER	GAS
2 TO <input type="text"/>	WALK TO SCHOOL GO TO VISIT MY FAMILY GO ON HOLIDAY ON A BOAT!	MY MUSCLES A <input type="text"/> A SAILING BOAT!	<input type="text"/> PETROL THE <input type="text"/>
3 TO HEAT MY HOUSE WHEN IT IS COLD OUTSIDE	MAKE A FIRE SWITCH THE <input type="text"/>	A FIRE PLACE/STOVE CENTRAL HEATING SYSTEM	<input type="text"/> GAS

Since the formation of planet Earth, the sun has been at the origin of most energy mentioned in the above table. It provides light and heat. It makes the winds blow and makes plants grow. Millions of years ago, plants grew and decomposed to become coal, oil and gas.

For thousands of years, humans have learnt to use these sources of energy.

Do you know what renewable energy is?

Energy is classed as renewable if it is created quicker than it can be used up. Renewable energy is less polluting. Do you know any types of renewable energy? Please write them down.
